# CONSIDERING BUILDING A HANGAR OR FBO?

Coastal Steel Structures specializes in creating amazing steel airplane hangars and Fixed Base Operations. We understand the unique requirements of the aviation industry and take on the burden of managing the details, allowing you to focus on the bigger picture. With our expertise, you can confidently navigate the complexities of designing and constructing a phenomenal facility that meets all necessary permits and code requirements. You can count on us to deliver an amazing final product that's right for you!

Here are some of the many things that set us apart!

## **1 We Have Experience With All Different Types of Doors**

Whether it's bi-fold doors, sliding doors, hydraulic doors, or any other type of door system, we've seen it all and can accommodate whatever you have in mind! We understand that different aircraft and operational requirements demand specific door configurations, clearances, and load capacities. Our team is equipped with the expertise to deliver hangar structures that accommodate your door system. From selecting the appropriate door type to incorporating the necessary features such as insulation, and weather sealing, we pay meticulous attention to every detail to deliver a custom-built hangar that meets your exact requirements and specifications. With Coastal Steel Structures, you can trust in our experience and commitment to excellence when it comes to airplane hangar doors.

## Our Pro Services Division

The Professional Services Division at CSS was designed specifically to service our expanding list of erectors nationwide. We leverage our network of pros to cut down on lead times and get you your building sooner. This division connects you to the right experts for your project. Need a quality Erector in your area? We've got you covered! Are you an Erector yourself? Partner with us to get connected to new opportunities! We believe in helping to manage your project so you can get back to managing the bigger picture.

# 3

## We Help You Understand the Total Cost of Ownership

At Coastal Steel Structures, we are committed to providing you with a comprehensive understanding of the total cost of ownership. We believe that transparency is key when it comes to making informed decisions about your steel building project. Our experienced team will work closely with you to assess all the factors that contribute to the total cost, including permitting, material cost, foundations, and more. Our goal is to empower you with the knowledge needed to make sound decisions that align with your budget and goals.

## We Understand Permitting and Meeting Code Requirements

Navigating permitting and meeting code requirements is a critical aspect of the steel building business, and we are here to help. With our deep understanding of the regulatory landscape, we ensure that your project meets all necessary permits and code compliance standards. Our experienced team stays up-to-date with the latest building codes and regulations, ensuring that every aspect of your steel building adheres to the required guidelines for your area. From initial design and planning to construction and final inspection, we work diligently to ensure a smooth and hassle-free process.

## WE ARE HERE TO HELP

We know that building a hangar or FBO can be overwhelming, but we are here to help you! Our team is here to work alongside you from start to finish and help manage your project so you can get back to looking at the bigger picture. We are passionate about setting you up for success and creating a building that is right for you and your business. Let us be your trusted partner in bringing your vision to life.
